**Communication for Brainwave GRC's clients.**  
**Brainwave GRC's positioning regarding the Sprint4Shell component vulnerability.**

Madam, Sir,

I wished to inform you about Brainwave's official position with regards to the CVE-2022-22965 vulnerability concerning the Sprint4Shell component.

No Brainwave product has or will be affected by the CVE-2022-22965 issue or by the CVE-2022-22963. The affected module (spring-mvc) is not part of any Brainwave product or service, including our Cloud services.

Rest assured that Brainwave's top priority remains the security and sustainability of our technical choices and development activities. We are committed to providing a level of service that exceeds the expectations of all our customers.

I remain available for all further questions and enquiries.

Kind regards,

Cyril GOLLAIN  
President of Brainwave SAS
